Employee Experience and Digital Assistants in the Workplace

A FORMULA TO DRIVE DIGITAL WORKPLACE SUCCESS IN 2021 AND BEYOND

Workgrid

Hello!

Troy Campano

Co-founder and Chief Product Officer

Workgrid Software

20+ years experience working in the digital workplace, intranet, HR, IT, and corporate systems space.

Workgrid

Our Background

Liberty Mutual[®]

INSURANCE

2013

Liberty Mutual seeks to
improve digital employee
experience for 50k employees.

The Workplace is Moving into a New Era

The technology powering the workplace is undergoing a fundamental shift

Early Intranet

2000s

Digital Workplace

2010s

Mobile

Wearables

Cloud Apps

Data Science

Social Intranet

Messaging

Video Conferencing

And Through this Complexity

Employees were struggling with...

Missing Important Communications

Employees were frequently missing important announcements and time-sensitive reminders.

Delayed Approvals

Managers were losing approvals amongst other emails, blocking important work or requests from being completed.

Cognitive Overload

With too many systems for employees to use, key information and tasks were spread across multiple systems wasting valuable employee time and increasing frustration.

Too Many Login Screens

Many systems do not support Single Sign-On, requiring employees to manually type their username and password over and over.

Too Many Steps

If often took 10-15 clicks for employees to complete simple transactions like approving an expense report or timesheet.

Time Wasted Context Switching

Employees would waste significant time jumping from one system to another to complete tasks or lookup common information.

Poor Perception of IT / Corporate Departments

With each corporate department buying their own best-in-class SaaS and vendor systems, it left a siloed impression of these groups.

Ignored Intranet Content and Communications

Information on the company intranet and other communications weren't personalized enough for employees to actually stop and read.

Difficulty Finding Information

Employees didn't have a single tool to ask basic employee questions like "what is the time off policy?", "what's on the café menu?", or "how do I report a system outage?"

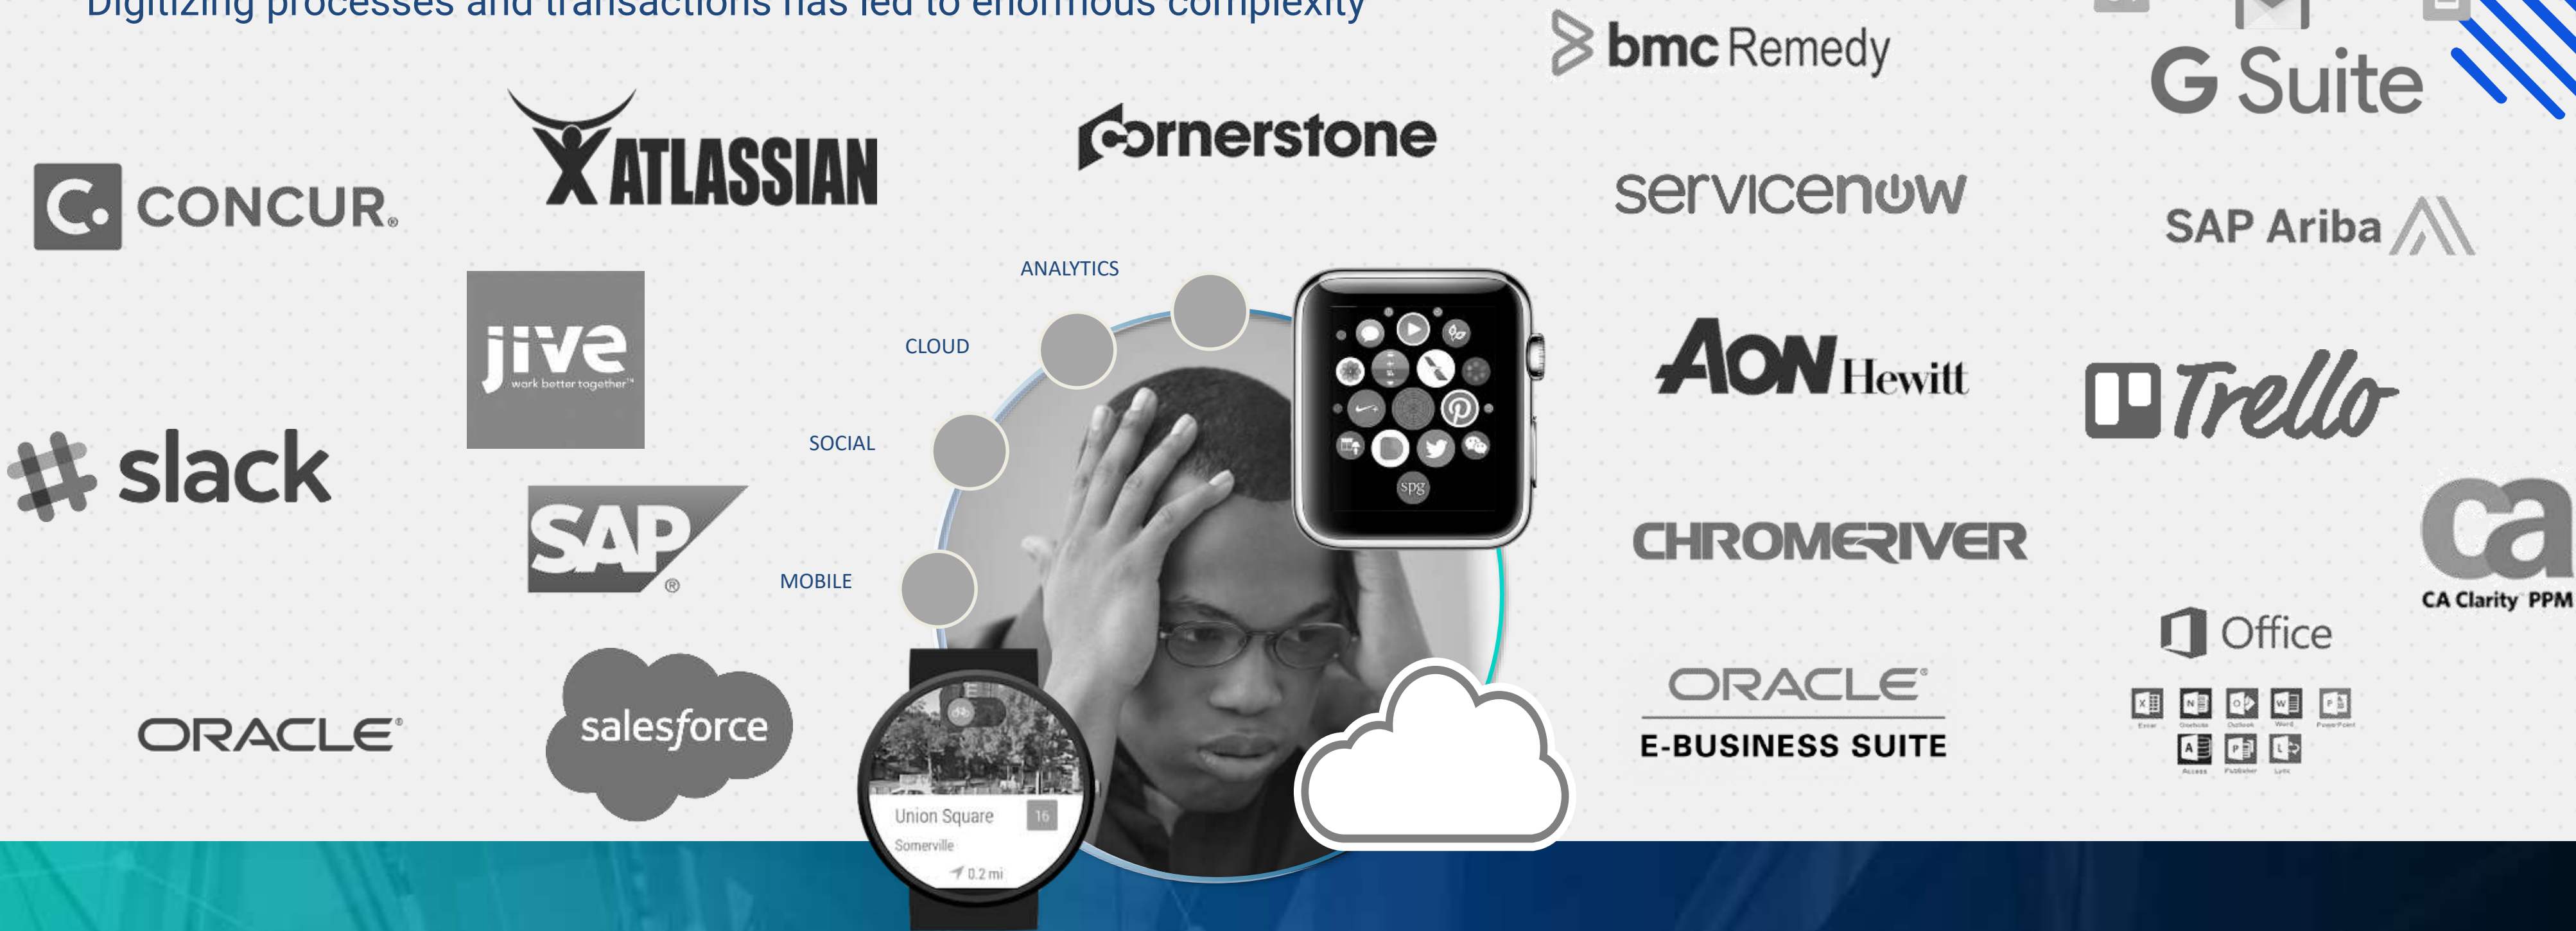

Complex Employee Experience

With no system to bring it all together, each vendor or SaaS product had a completely different user experience from the other.

The Complexity of Today's Workplace

Digitizing processes and transactions has led to enormous complexity

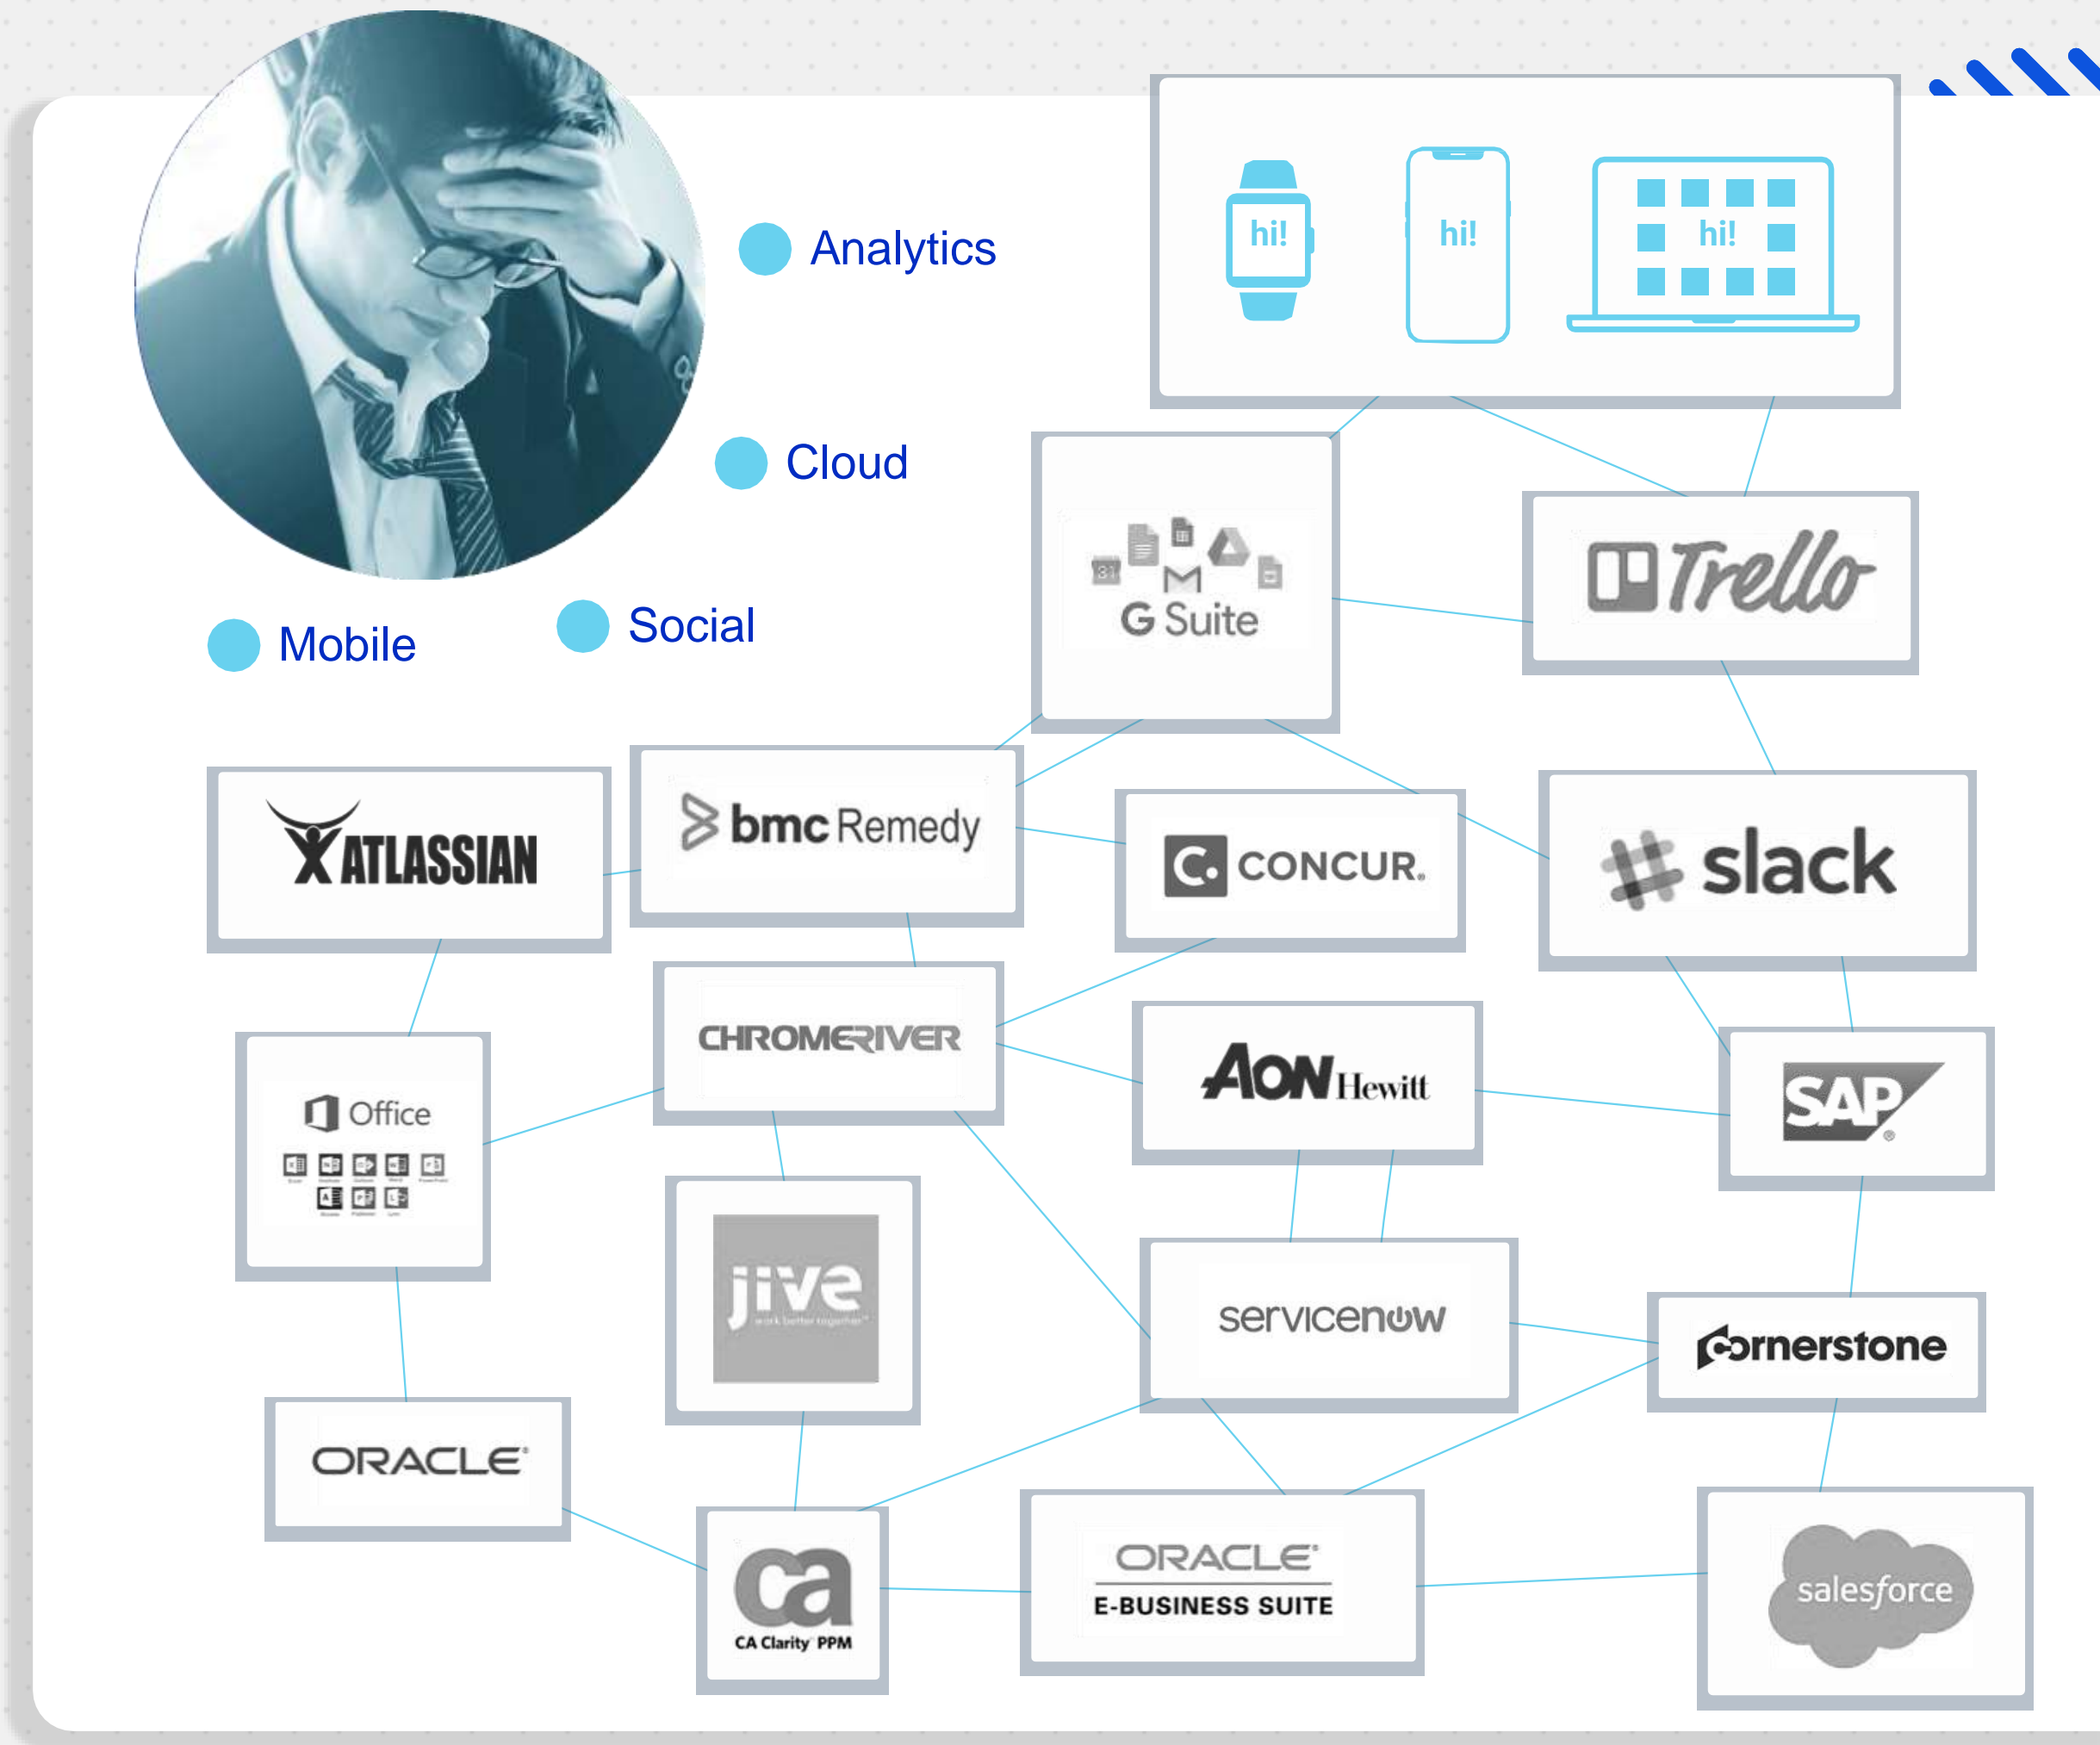

Today's Workplace

The complexity of today's workplace

Dozens of apps with overlapping goals and **fighting for the employee's attention**

- “Workers Waste 32 Days A Year Due To 'Workplace Efficiency' Apps” – Forbes Magazine
- A staggering 53% of workers said they find having to “navigate between apps” more annoying than working on “household chores,” - RingCentral

Trend #2

Drive Engagement on Mobile

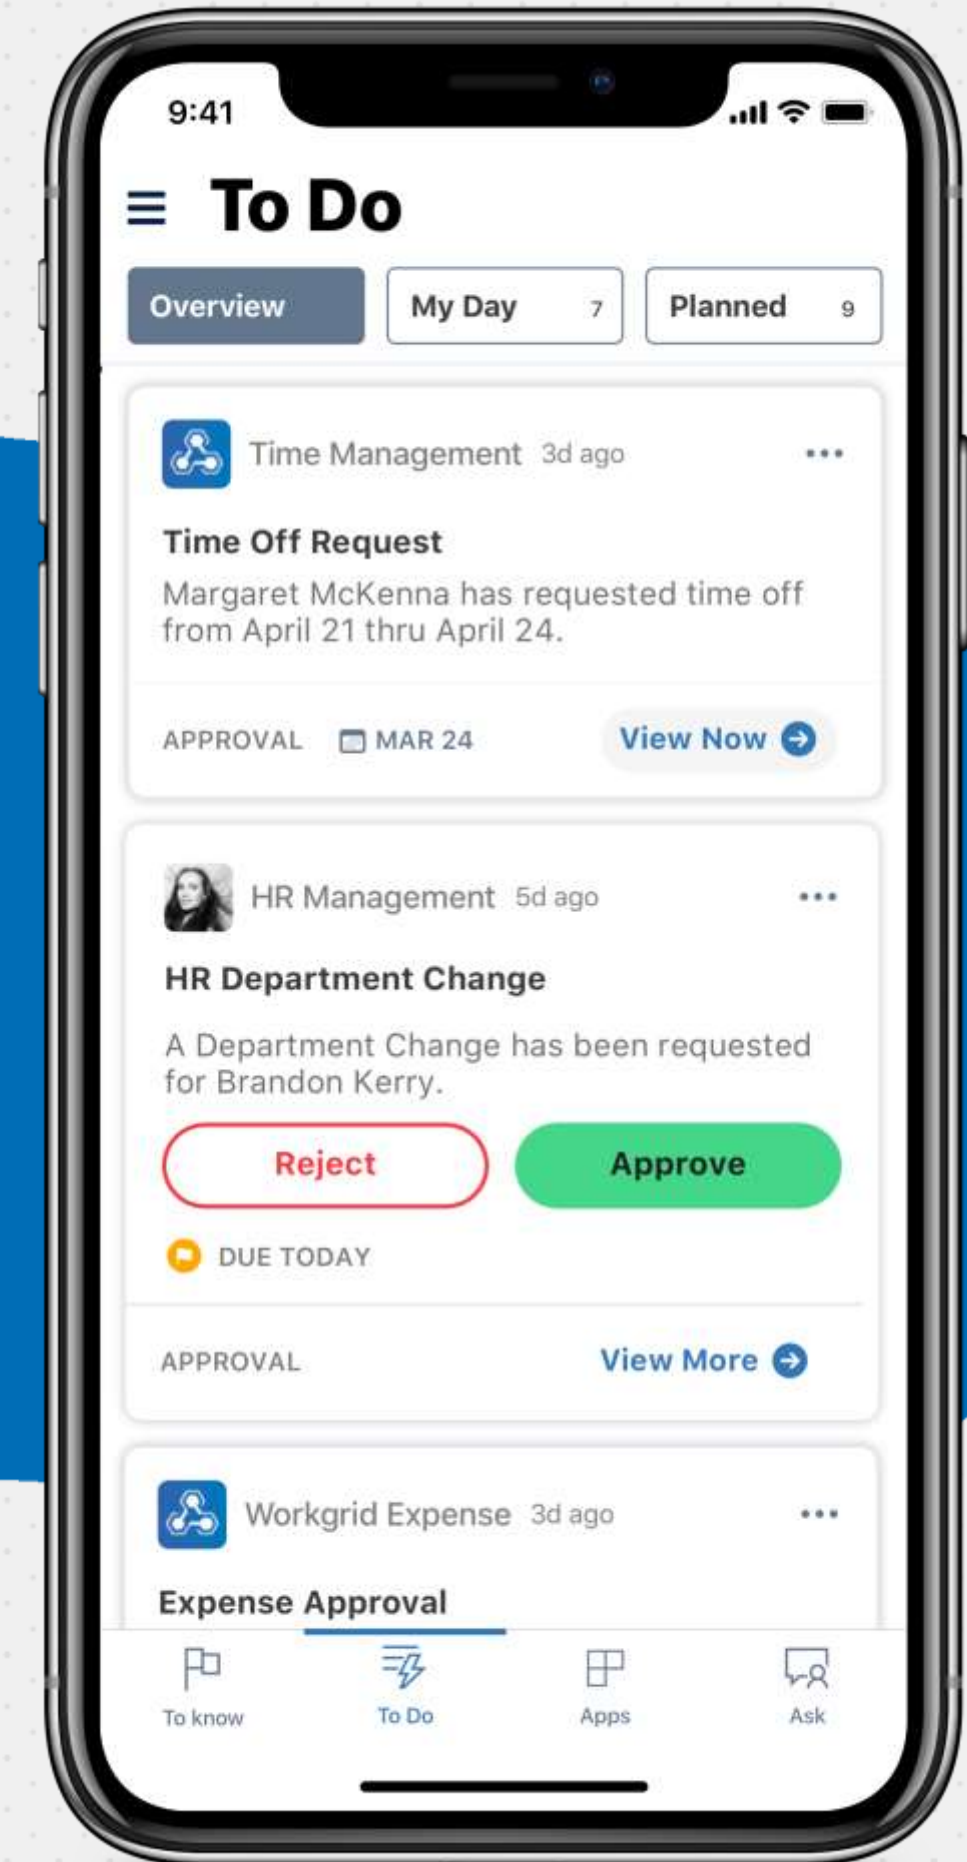

Engage on Mobile with Communications and Notifications

Moments that Matter

Push Notifications can drive significant engagement on mobile. Many use cases (like Vacation Balance, Payslip, and more)

For Many Workers, Mobile is the Only Channel

Does Your Digital Workplace Strategy Include Mobile-Only

*Mobile and deskless workers now make up 80% of the global workforce.*¹ Often frontline workers may not have access to a computer to receive enterprise communications or transactions. A mobile-focused strategy enables workers to access payslip information, time off, perform transactions, fill out forms, onboard and more all from their mobile device.

balanced Life in Today's
financial-driven

you know what one of the key secrets of success is -

A woman with blonde hair, wearing a white hard hat, safety glasses, and a light blue button-down shirt, is looking down at a tablet computer. She is also wearing a blue lanyard with a badge. In the background, another person wearing a white hard hat and a high-visibility yellow safety vest is visible, working in a factory or warehouse environment with stacks of cardboard boxes.

Employee Experience Matters

Employee Experience is a Top Priority for Most Major Organizations

- 😊 Employee Experience Leads to Great Customer Experience
“Studies have documented a clear statistical relationship between increases in frontline engagement, increases in customer service, and revenue growth.” - Deloitte
- 😊 Engaged Employees Lead to Increased Revenue
“Highly engaged employees help grow revenues,” according to Bain & Company “ - as much as two and a half times more than companies with low engagement levels.”
- 😊 Attract and Retain Talent
Technology that makes daily work easier, allowing employees to focus on what matters / what they were hired to do, improves job satisfaction.

Trend #3

Put the Employee at the Center of the Experience Using Outcome-Driven Design.

A Platform for You to Build Modern Employee Experiences

A Future-Proof Event-Based Platform to Build Your Intelligent Workplace

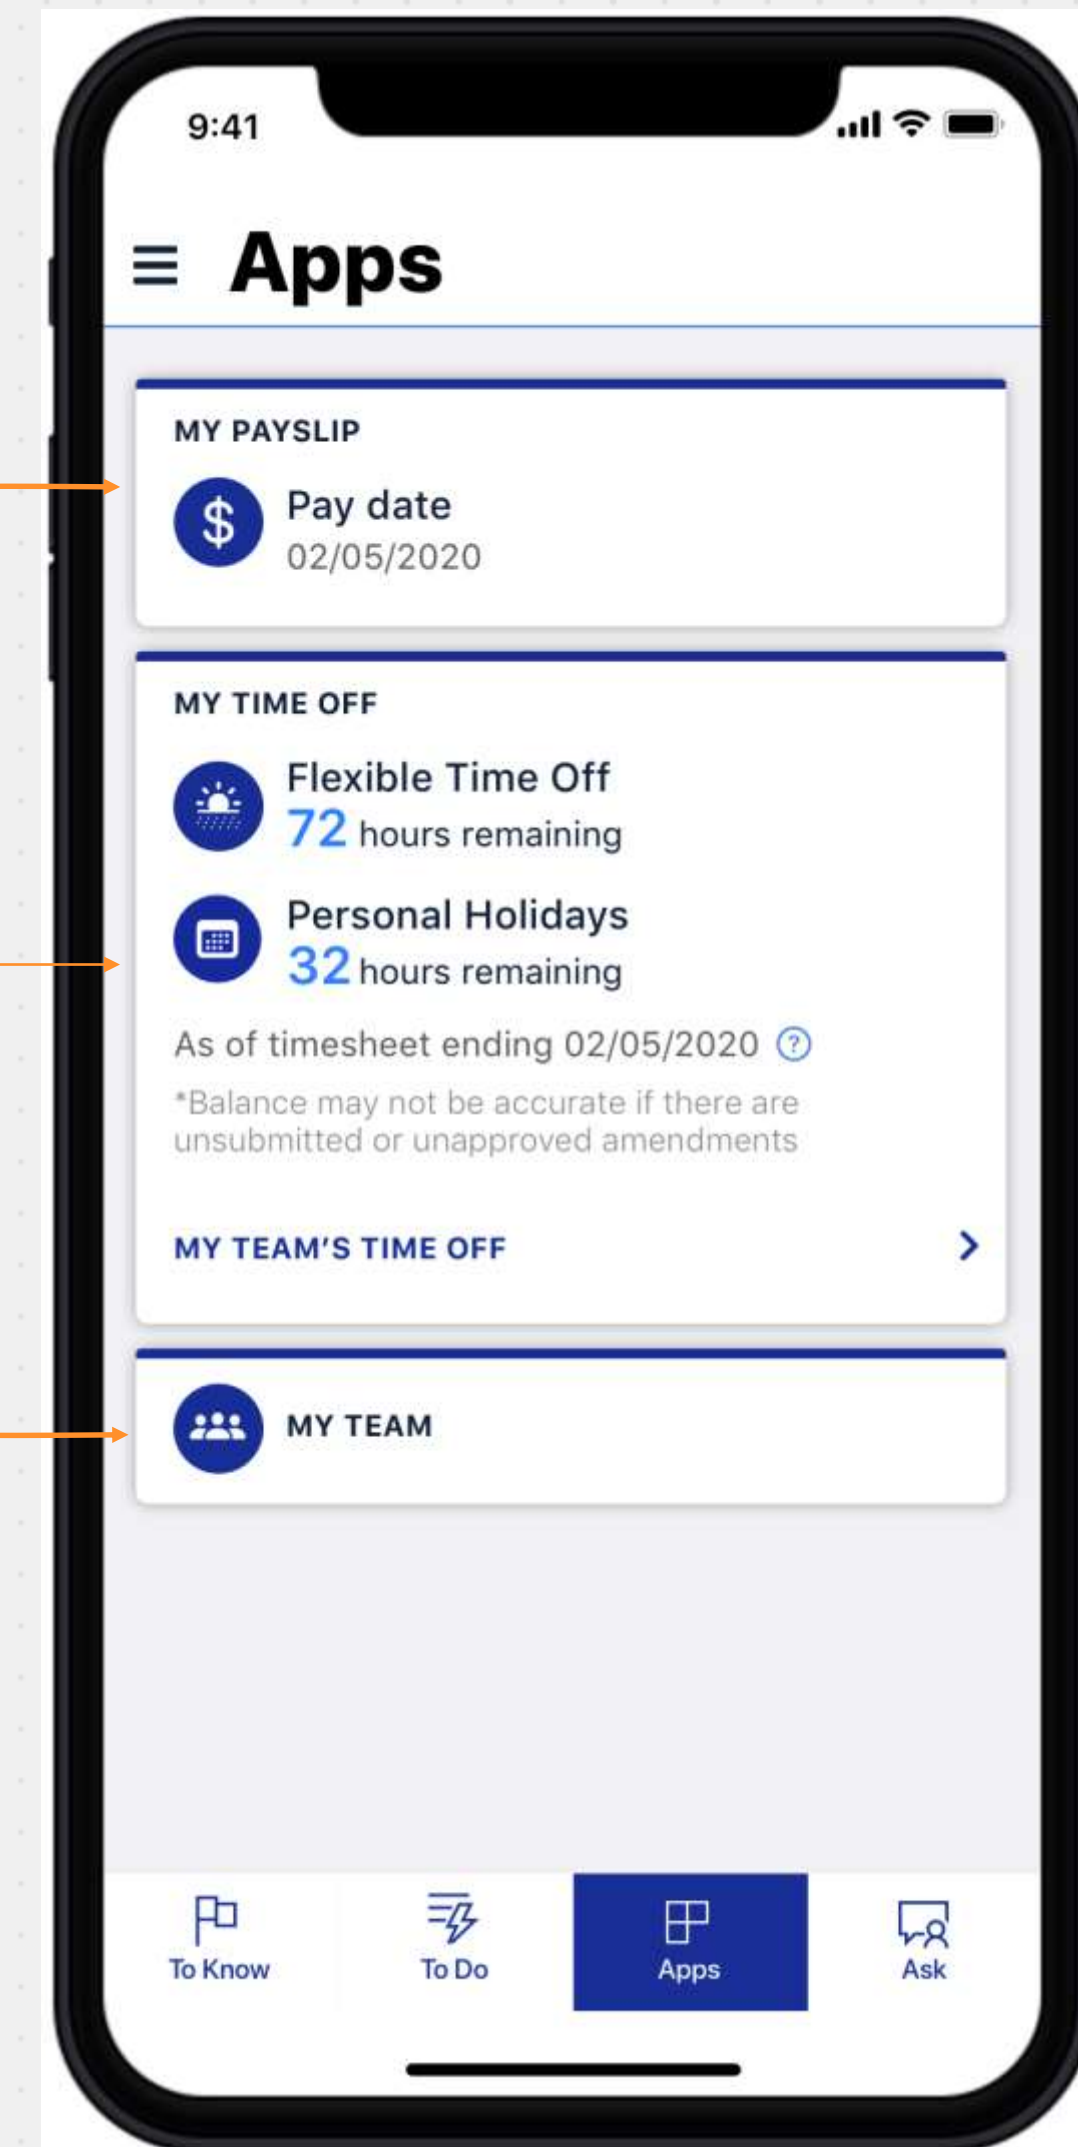

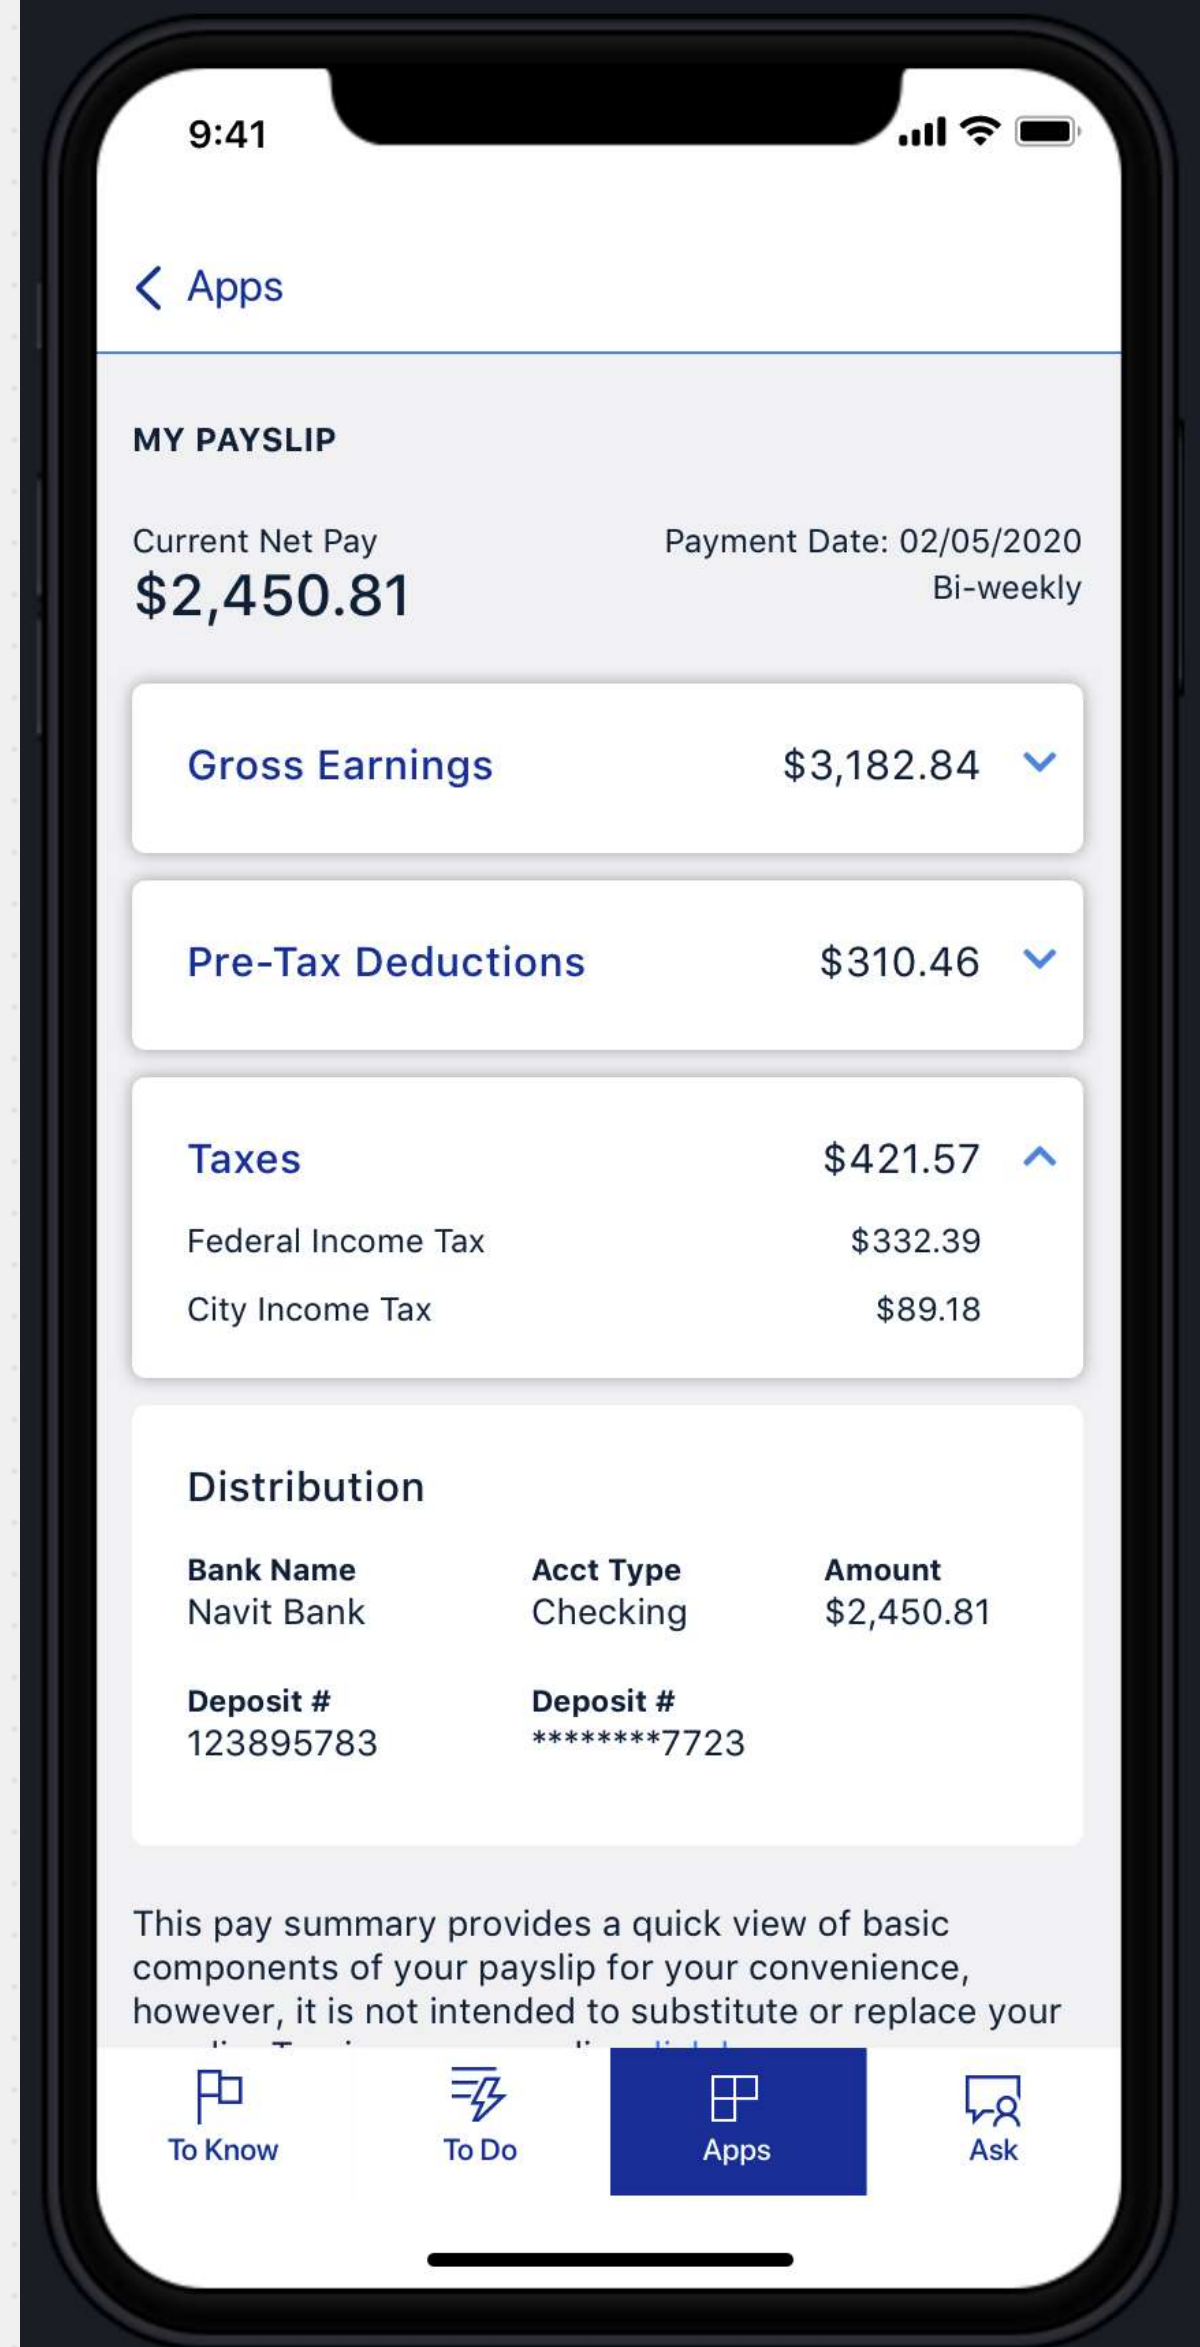

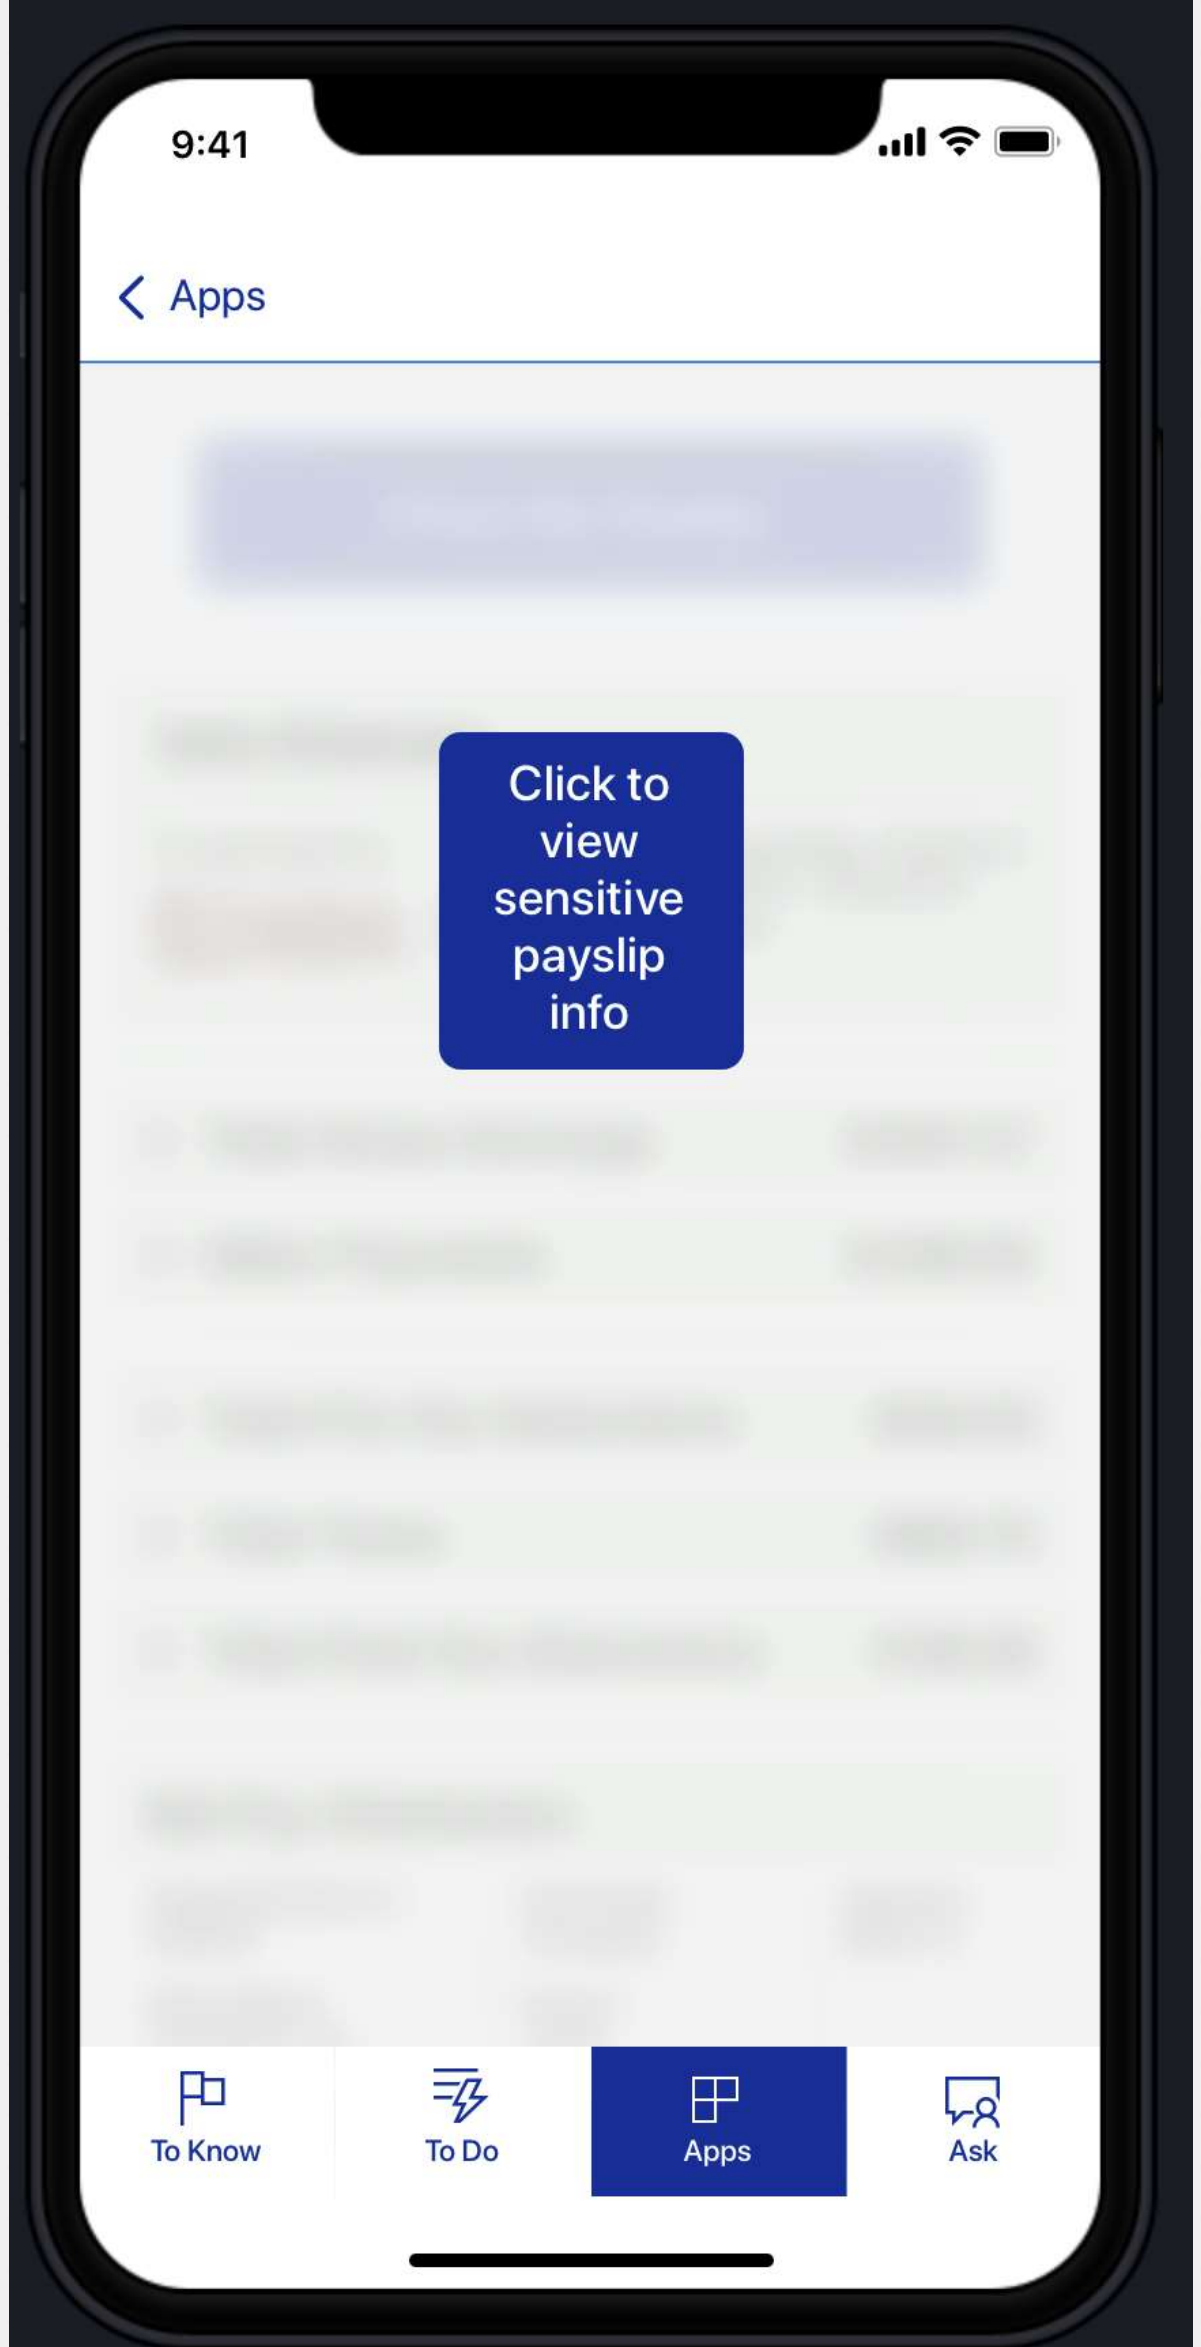

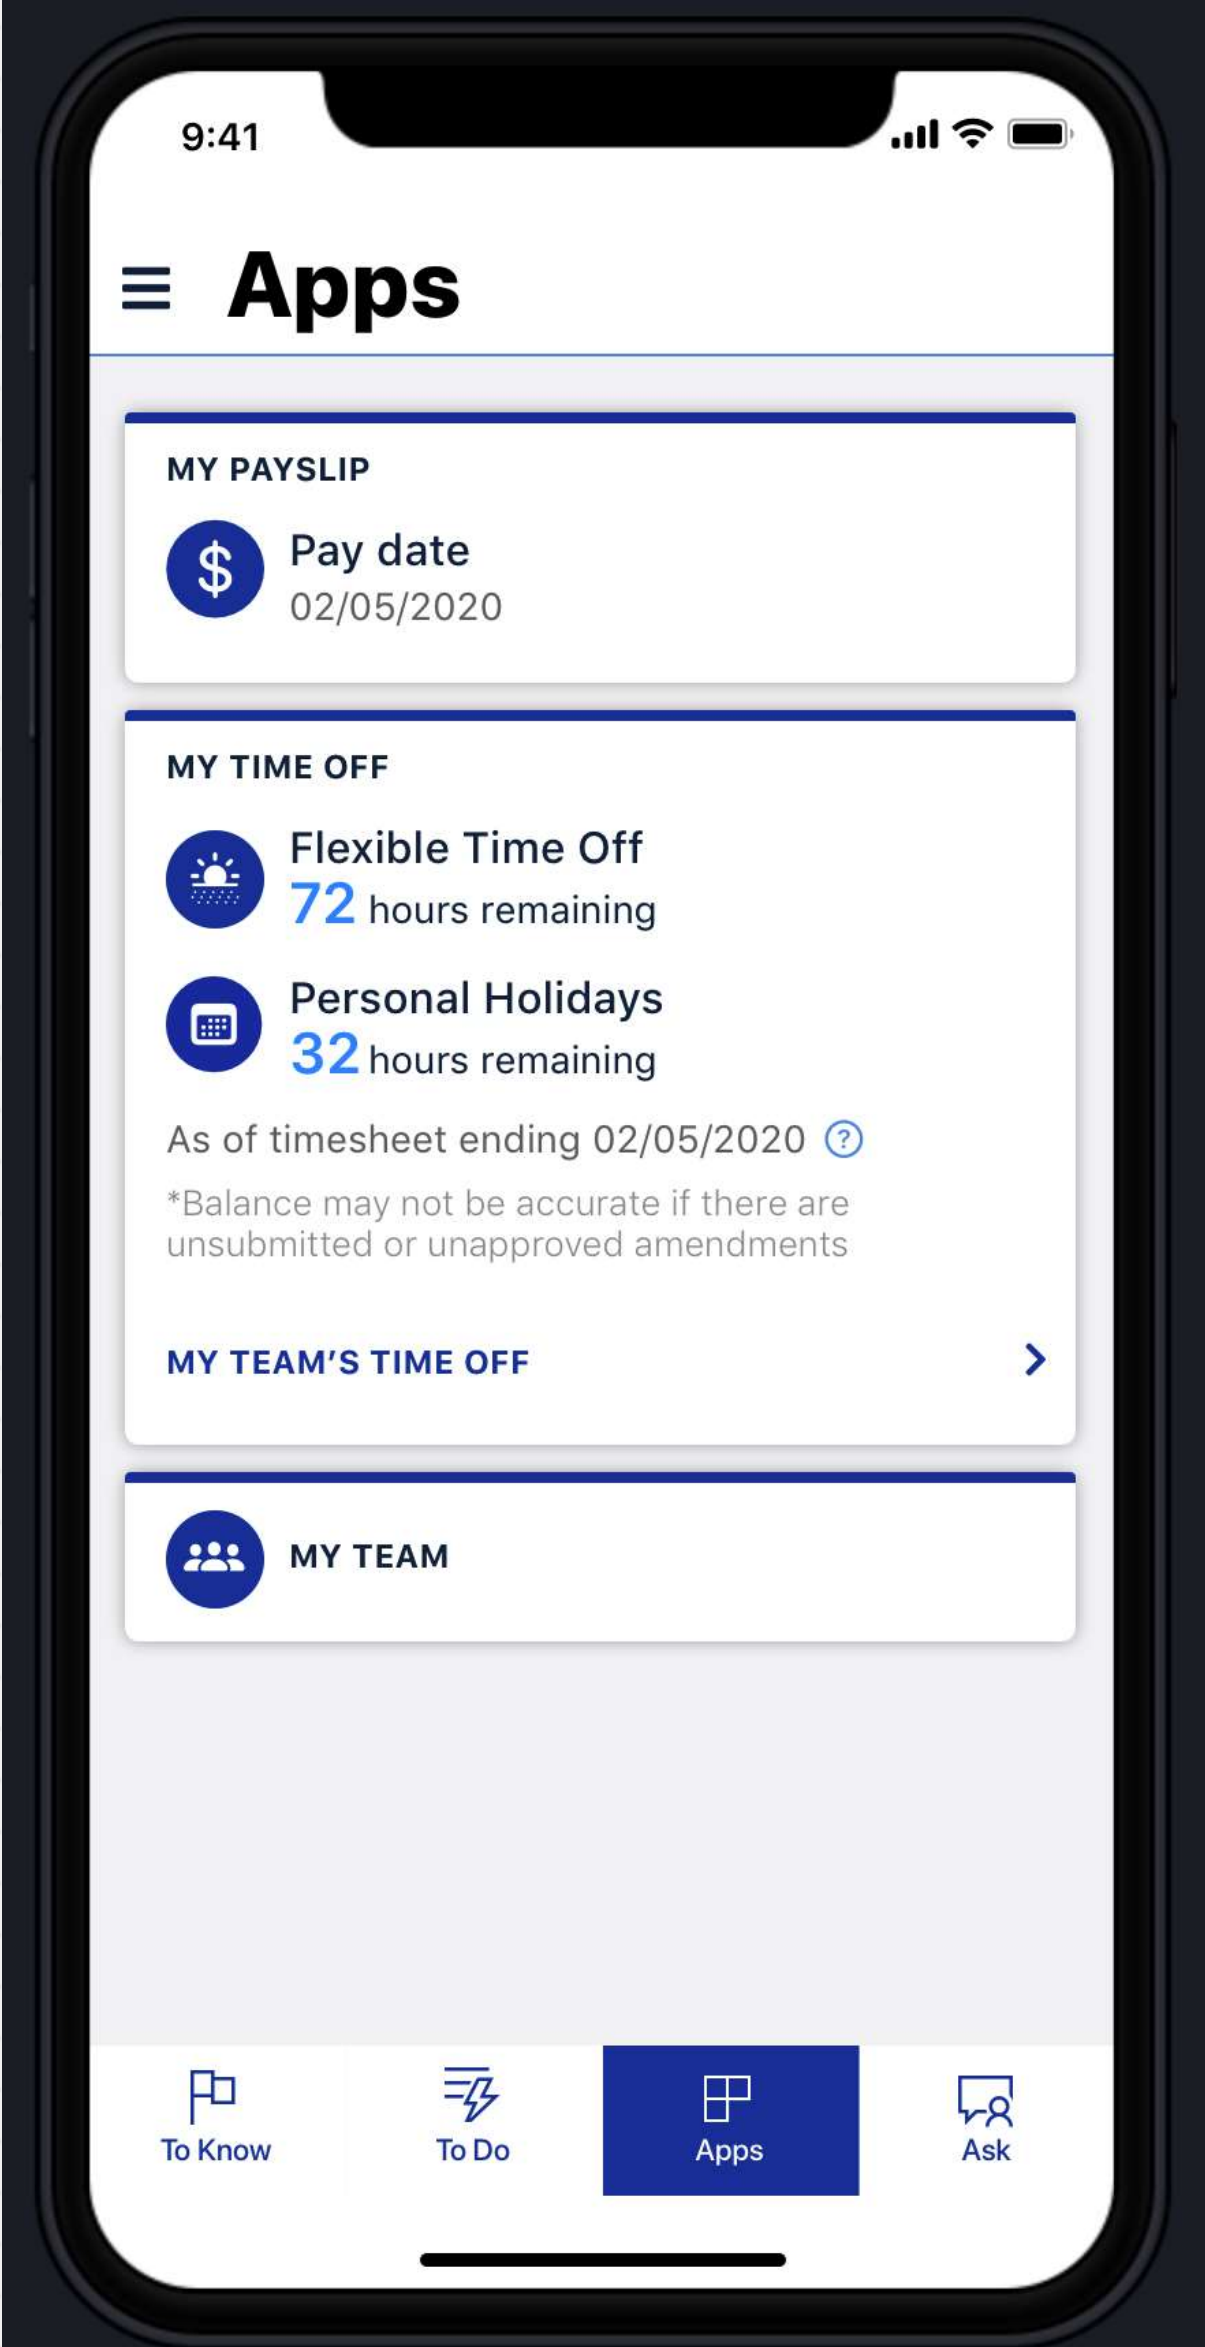

Trend #6

The Critical Role of HR & IT in Your Digital Workplace Strategy

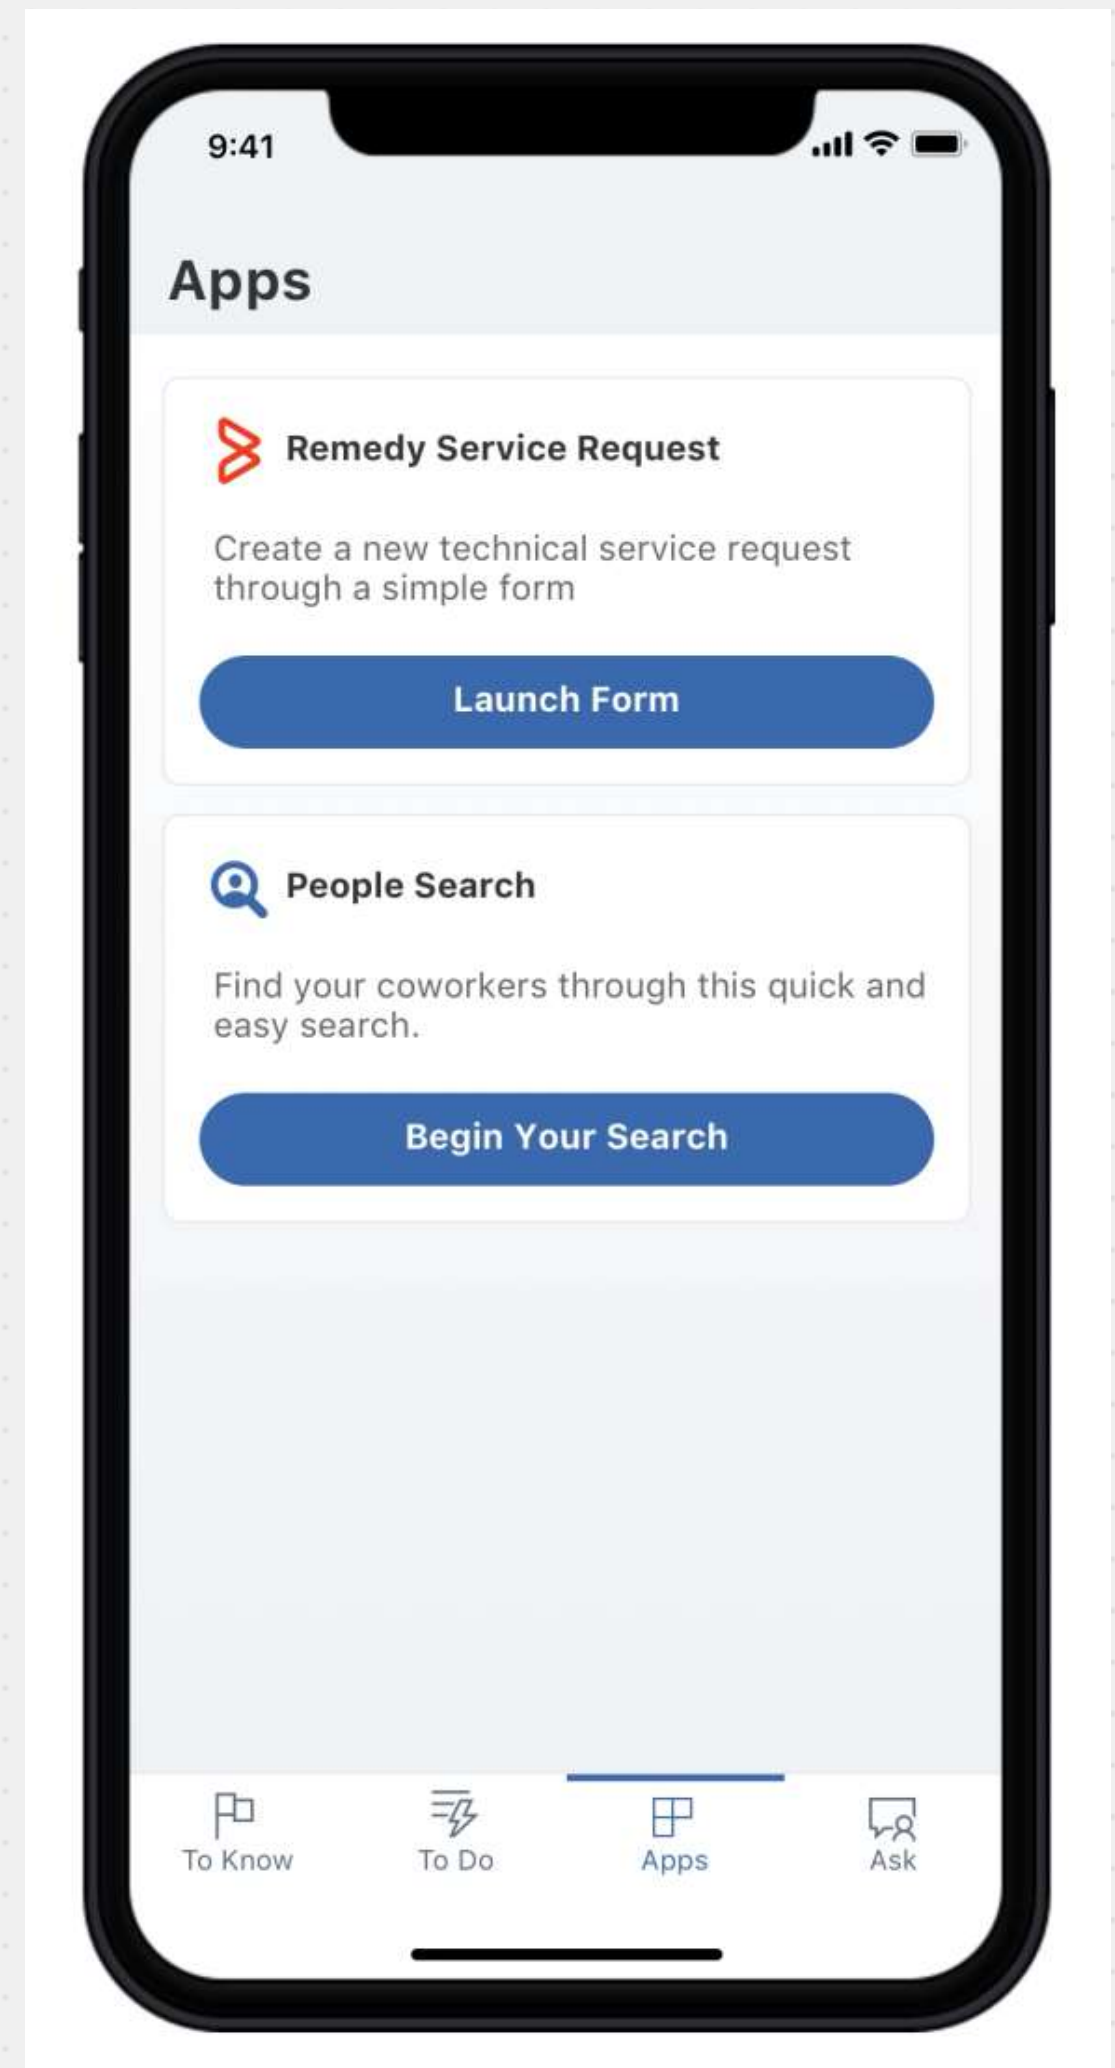

HR Functionality Reaches All Employees

...And so does IT

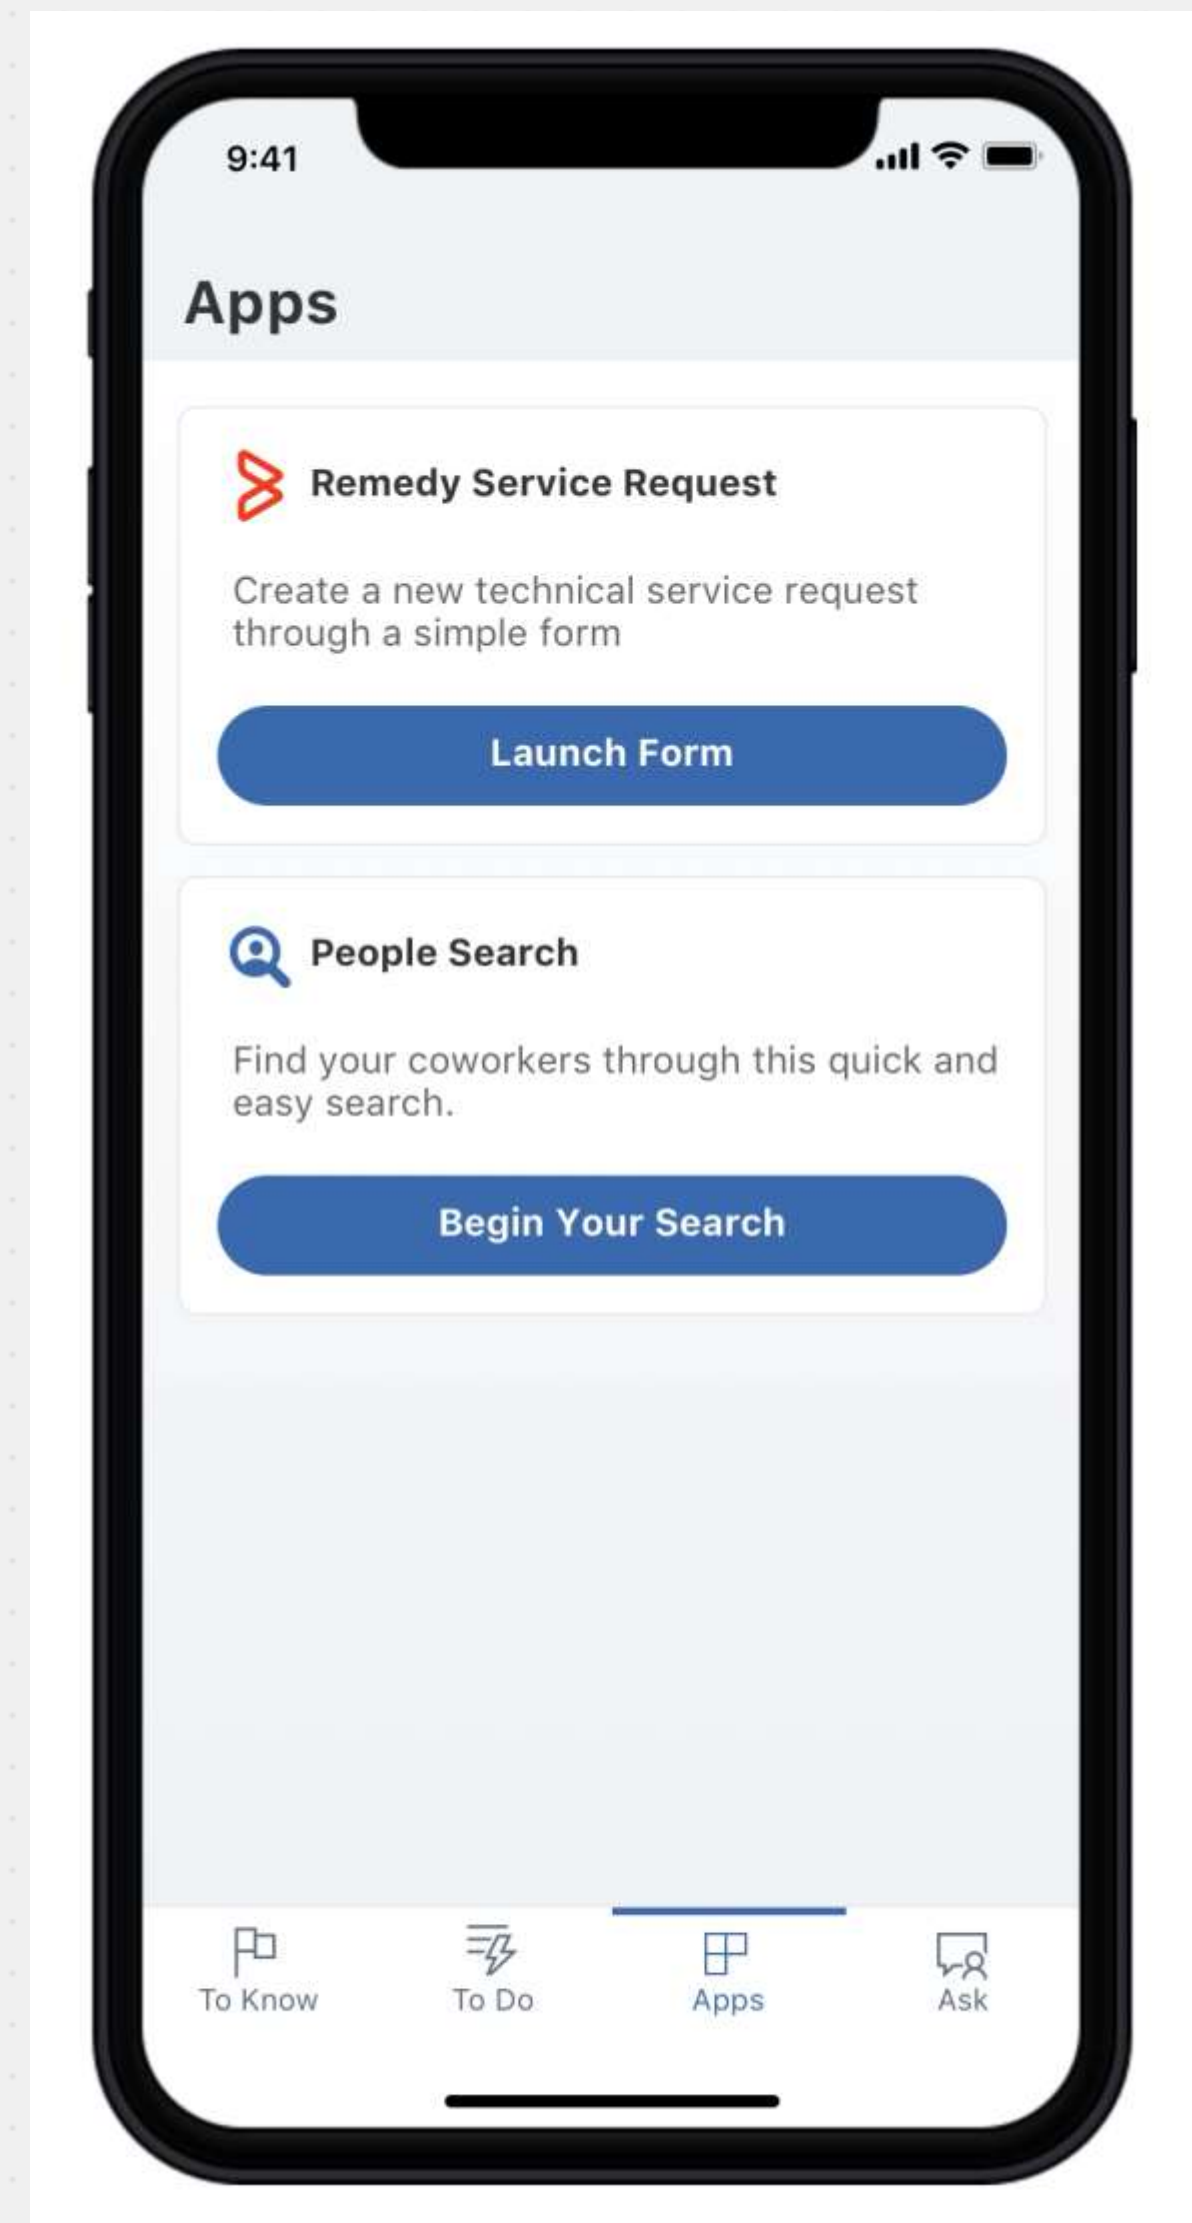

Modernizing Legacy System & Streamlining Workflows

Making it simple to engage with IT Services from multiple delivery channels. Increasing employee satisfaction and reducing cost for IT.

Solution Highlights

- **Start with quick win**- understanding employee top pain points to start digital transformation efforts
- **Modernize legacy systems** – streamlined complex employee process while extending ROI of ITSM
- **Outcome-driven design** – designed process based on employees intent and outcome – quickly submitting tickets
- **Multichannel delivery**– mobile experience and integrated directly on intranet- delivering experience where employee needs access

Reimagine Intranet and Digital Workplace as Productivity Hub

Transforming Your Digital Workplace into a Productivity Platform

The screenshot displays the 'The Landing Zone HQ' interface, which is a digital workplace productivity platform. The top navigation bar is purple with the company logo, name, and a search bar. The main content area is divided into several sections:

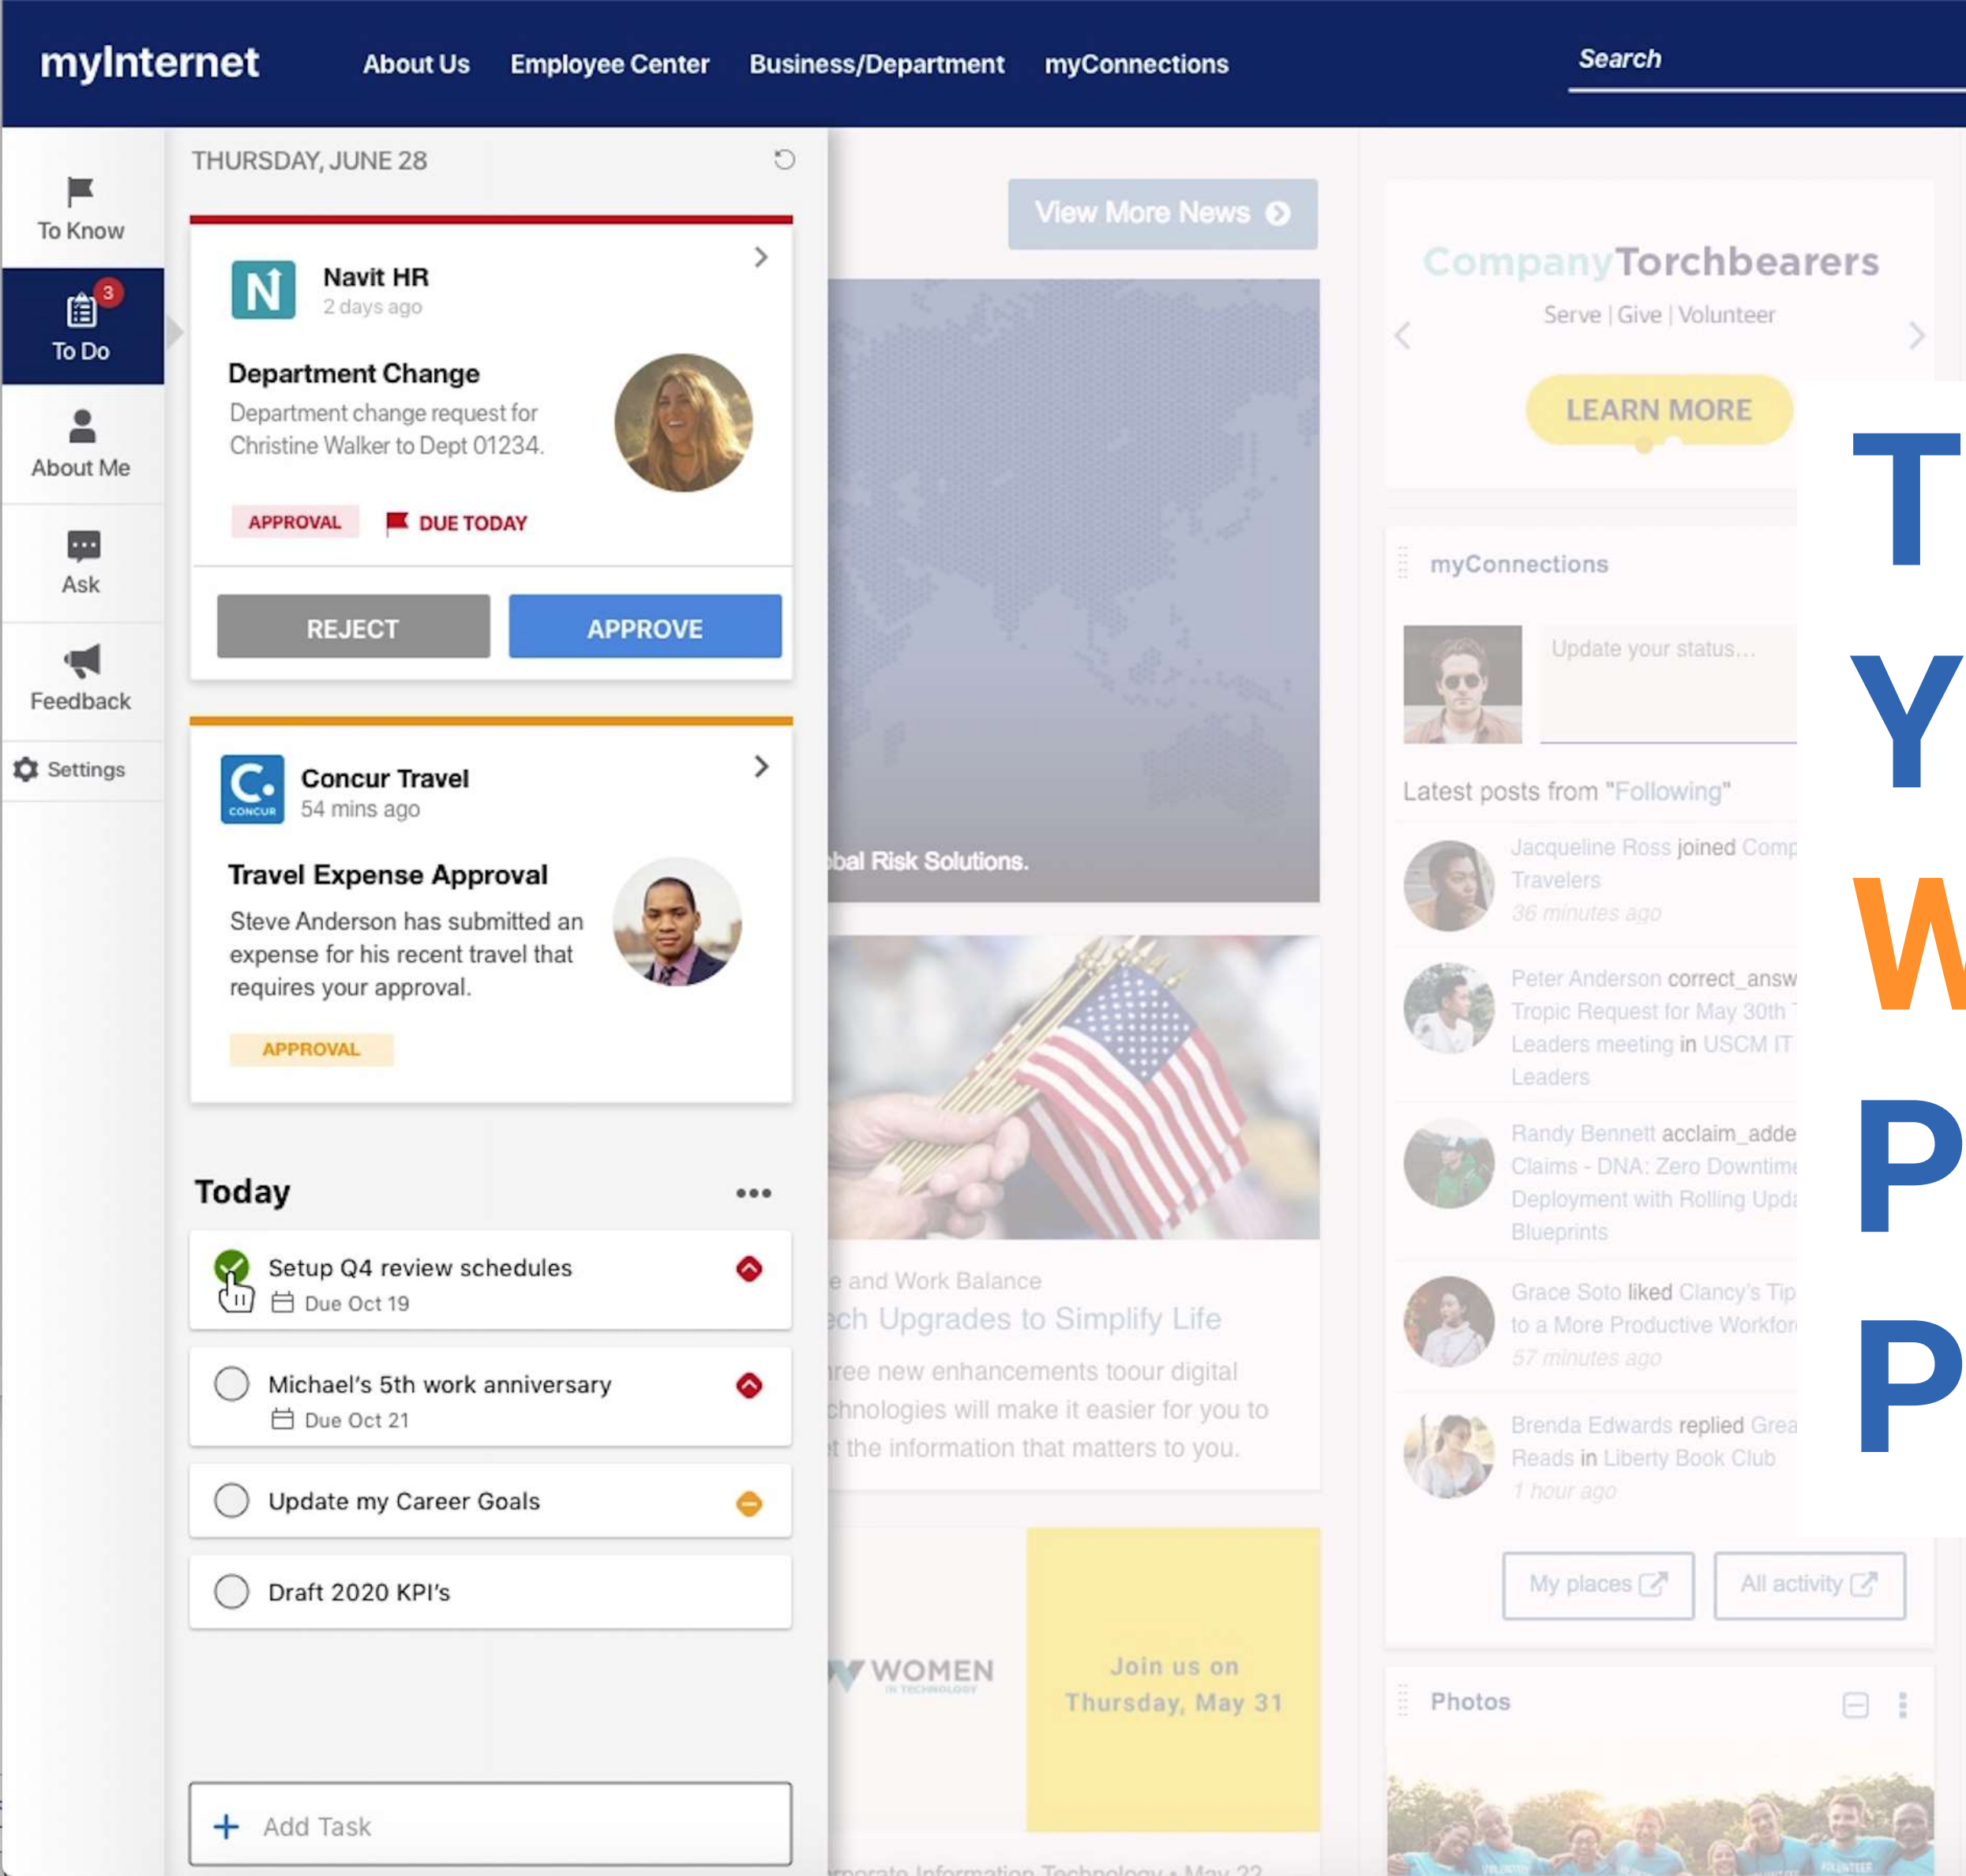

- Notifications:** A list of alerts from various applications. The first notification is from Concur regarding an 'Expense Report' for \$20.00, submitted 20 hours ago. The second is from Service Now stating 'You have a new approval!' for a request created by Ian Cole 2 days ago. The third is from SAP Ariba regarding a 'Requisition - PR5396' requested by Brandon Kerry for a total amount of \$99.99, submitted 20 hours ago. The fourth is from SAP Fieldglass regarding a 'Time Sheet Approval' submitted by Anton Employee 14 hours ago.
- To Do:** A task management section showing a list of tasks categorized by 'Today', 'This week', and 'Assigned to me'. The tasks include 'Product planning for Q4' (due Nov 15), 'Release kick-off meeting' (due Dec 15), and 'Develop media plan' (due Dec 23).
- Activity:** A section showing a list of activities, including 'My January Tasks' and 'Project Reporting'.
- Fitness Challenge:** A promotional banner for a 'Run to the beach Fitness Challenge' with a 'Details' button.

The interface is designed to be clean and modern, with a focus on providing users with a centralized view of their work and tasks.

Reimagining the Intranet & Digital Workplace as a productivity hub

- Integrated Digital Experience
- Personalized & Contextual Experiences
- Focus on the “Experience” & employee UX
