# Europes Best Intranets?

- Really?

# Jane McConnell

- The distinction I make is "head-quartered" in Europe or in North America. I have never focused much on this issue, so I took a look at this year's data for you, to see if I could find a significant difference. I did not. Differences will be more based on sectors, such as the financial services sector compared to healthcare sector, etc.
- A couple of years ago, the European-headquartered companies were slightly more likely to have social media internally, but today there is really no difference. I checked the data for "social media maturity" and found only a couple of percentage points difference this year, so not significant.

**The Digital Workplace extends beyond the traditional scope of intranets**

# What Characterises the Best Intranets?

**To improve the score:** archive, delete or activate the inactive documents. We all individually contribute to updating good data quality by archiving or deleting our inactive documents. Inactive documents have not been accessed by any user for 6 months or more. Archived documents are not deleted or moved - they are merely excluded from the default document library view and the regular search results. The archived documents are greyed out, but they are still editable and can be restored from the archive.

**Summary** [ [Edit Summary](#) ]

I am a seasoned IT Solution Architect, well versed in all aspects of Information Technology, requirements specification and implementation.

I interpret, embrace and extend business strategy and participate in a healthy feedback relationship with executives and customers. I design new and innovative applications through a unique combined knowledge of business challenges, processes, technologies and user requirements. With solid experience as a developer, I ensure a successful, well engineered and cost effective implementation either internally as the lead developer or in close collaboration with a vendor

My goal is to demonstrate that IT is not just a tool to streamline the business. IT has a huge potential to catalyze top line growth by supporting the business strategy and by enabling smart, creative and innovative employees realize their full potential.

27/4/2010

Vorige week is het  
tweejaarlijkse  
onderzoek van start  
gegaan waarmee de  
tevredenheid onder  
medewerkers wordt gemeten (MTO) en nu  
al heeft 33% van de VenW-collega's  
hieraan mee gedaan. Op zich een mooi  
cijfer, maar natuurlijk kan dit nog een stuk  
hoger. Als je nog niet aan het MTO hebt  
meegedaan, dan heb je dinsdag 27 april  
waarschijnlijk een herinnering per e-mail

# The Plot

The best intranets have a good communication between IT and communications.

They also have a person that LOVES intranet.

A close-up portrait of a middle-aged man with short brown hair, wearing glasses and a white shirt. He is smiling and looking slightly to the right. The background is blurred, suggesting an outdoor setting.

Thank you for your patience
